NEW ASKIR 30

NEW ASKIR 30 is suitable for nasal, oral and endotracheal aspiration of bodily fluids (mucus or catarrh) from adults and children. Indicated for tracheotomized patients, surgical applications and post-operative therapy, NEW ASKIR 30 finds application in out-patient and in-patient care, elderly care, in private care and at professional level due to its powerful suction capacity of 40 l/min. The newly-designed ergonomic handle ensures a comfortable and secure grip.

OPTIONS

- Wall Mount

(antistatic upon request) - Carrying Bag (for 1000ml jar)

- Carrying Bag (for 2000ml jar)

- Vacuum regulator footswitch

- Stand on 5 Castors Ø 50mm with Brakes
